Sir:

Attached is a completed Form PTO-1449 and copies of the pertinent parts of the references cited thereon. Following are comments on any non-English-language references pursuant to Rule 98:

EZY CARE DROP AID.

This is a cup that fits over the eye and has a hole on the opposite end where the tip of the eye drop bottle fits in. The drops must go through the cup to be delivered into the eye. The cup must be kept sterilized after each use to prevent contamination.

EYE DROP GUIDE.

This is a plastic cradle that holds the eye drop bottle. The cradle has a projection at the bottom side that you rest on the cheek bone below the eye to drag down lower eye lid to make a pocket to receive the eye drop.

FIRST DROP.

Also has a cradle for the eye drop bottle to rest on while a projection on the cradle prepares the eye to receive the drop.

Very respectfully,

Applicant(s): Howard Kapple
